

# LEED - CI

## For Commercial Interiors Certified Level

Corporate Showroom  
1400 East Indian School Rd  
Phoenix, Arizona 85014

March 2008

**Creating the Sustainable Office:**  
Links to Worker Health, Well Being and Productivity.

We are excited to announce that our Corporate Showroom facility, Indian School Road in Phoenix, has achieved LEED-CI Certification by the U.S. Green Building Council.

At the time of our showroom renovation there was no LEED-CI rating system. Because we made all the right choices in the construction process, we were able to go backwards and document our choices and become a certified building. Goodmans received a LEED-CI Certified rating in March 2008 primarily from the use of sustainable material choices for the interior.
